Planning application lodged for development in Harrogate

Moorgarth Properties has lodged an application to demolish the existing buildings at Southfield, Station Parade, Harrogate and replace them with a new development, including 4 office units and 21 apartments.

The new development will be the first of its kind in Harrogate town centre for many years and is thought to significantly improve the provision of modern office facilities in the centre. The apartments have been designed to have views over the Stray.

Moorgarth has been advised by SDA Partnership, Carter Jonas and Bowcliffe LLP.
